Rutgerson 1585 batten receptacle

Contender UK are please to introduce the all new Rutgerson 1585 'hassel free' batten receptacle.

Just pull the clip, slide the lid and the batten is free without the use of tools.

Nominated for a DAME award, the innovative '1585' is a user-friendly solution for full battens on yachts to 38ft. Designed to accept a standard M10 thread as the connection to a battcar, this versatile receptacle is compatible with both flat battens up to 25mm x 10mm and round battens up to 10mm.

The integrated lid on the '1585' eliminates the need to replace lost parts and a clear tensioning scale and indicator makes for hassle-free tensioning. With only five fastening points and an attachment to secure round battens, the ease of installation makes the '1585' ideal for sailmakers and boat owners alike.

This receptacle is ideally suited for full batten applications on boats up to 38 feet in LOA.
